

▶ EF5500FW

YAMAHA 5500W CONVENTIONAL GENERATOR

Meet your new best friend.

Delivering an unbeatable combination of power, economy and quiet performance, this compact generator will not let you down.

The EF5500FW quietly cranks up to 5.5kVA maximum output providing quick and reliable power. With a new environmentally friendly engine, it can easily run small pumps, power tool, RV air-conditioners, computers and so much more.

The features packed into EF5500FW include large capacity 28 litre fuel tank, extra large muffler for super quiet operation, high strength frame for tough use environments, compact body for excellent storage and portability and digital multi-function meter, displaying cumulative running time (hours) and voltage. With the highest output level in its class featuring low fuel consumption and long non-stop running capacity, it's everything you would expect from Yamaha in one beautiful compact package.

- High Quality Electricity
- Low Oil Auto Shut Off
- Heavy Duty Welded Roll Cage Style Frame
- Over 17.5 hours* running time at 1/2 load
- Fuel Gauge Monitor
- 3 Year Warranty!
