**⚠ IMPORTANT:** In order to have a correct function you must use an electrical generator in class G3 or more (frequency variation  $\pm 1\%$ , tension variation  $\pm 2\%$ ). The maximum power of electrical generator must be three time the nominal power of device that you must connect.

**IMPORTANT: READ AND UNDERSTAND THIS OPERATIONAL MANUAL BEFORE PERFORMING ASSEMBLY, COMMISSIONING OR MAINTENANCE ON THIS HEATER. INCORRECT USE OF THE HEATER CAN CAUSE SERIOUS INJURY. KEEP THIS MANUAL FOR FURTHER REFERENCE.**

## ▶▶ 1. SAFETY INFORMATION (WARNINGS)

 **IMPORTANT: This air heater has been designed for mobile and temporary professional applications. It has not been designed for domestic use nor for thermal comfort of human.**

 **IMPORTANT: This device is not suitable for operation by persons (including children) with impaired physical, sensory or mental faculties, as well as inexperienced personnel, unless supervised by a safety guardian. Children are not to be left unattended as to ensure they are not playing with the equipment.**

 **WARNING: Carbon monoxide poisoning can prove to be fatal.**

First symptoms of carbon monoxide poisoning are similar to influenza with severe headaches, dizziness and/or nausea. Such symptoms may be caused by heater fault. UPON NOTICING THESE SYMPTOMS, IMMEDIATELY LEAVE THE ROOM AND GO OUTSIDE, next, notify the technical service center that the heater needs to be repaired.

### 1.1. SUPPLY:

- ▶ 1.1.1. Personnel in charge of supply must be fully qualified, must be familiar with the manufacturer's manual as well as the effective regulations for safe supply of heaters.
- ▶ 1.1.2. Only the fuel types specifically listed on the heater's nameplate are to be used.
- ▶ 1.1.3. Before refueling, shut down the heater and wait for it to cool down.
- ▶ 1.1.4. Fuel cisterns are to be located in a separate facility.
- ▶ 1.1.5. All fuel containers are to be located within safe distance from the heater, as per the applicable regulations.
- ▶ 1.1.6. Fuel is to be stored in rooms with insulated floor, so that the fuel cannot penetrate the floor into the open flame below causing fuel combustion.
- ▶ 1.1.7. Fuel storage needs to follow all the applicable regulations.

### 1.2. SAFETY CONSIDERATIONS:

- ▶ 1.2.1. The heater should never be used in rooms with fuel, paint thinners and other combustible fumes.
- ▶ 1.2.2. All applicable local rules and regulations need be observed while using the heater.
- ▶ 1.2.3. Heaters in operation near tarpaulin, screens or other similar materials need to be located a safe distance away. The use of inflammable covers is highly encouraged.
- ▶ 1.2.4. The device is to be used in well ventilated interiors only. To ensure proper air circulation, a proper opening is required, as per the applicable regulations.
- ▶ 1.2.5. For heater power feed observe closely the voltage and frequency values given on the nameplate.
- ▶ 1.2.6. Only use grounded, three-core extension cords.
- ▶ 1.2.7. Minimal safety distance between the heater and combustible materials is: front = 2,5 m (8 ft); side, up and back = 1,5 m (5 ft).
- ▶ 1.2.8. To avoid fire, hot or working heater is to be placed on a stable and leveled flooring.
- ▶ 1.2.9. Animals are to be kept at a safe distance away from the heater.
- ▶ 1.2.10. Unplug the heater at all times during downtime.
- ▶ 1.2.11. Thermostat control allows the heater to be turned on at any time.
- ▶ 1.2.12. The heater must not be used in frequently visited rooms and in bedrooms.
- ▶ 1.2.13. If the heater is plugged in, hot, or currently running, it must not be moved, manipulated, refueled or attempt maintenance work of any kind.
- ▶ 1.2.14. Keep the safe distance between the hot parts of the heater and thermosensitive or combustible materials (including feeder cable).
- ▶ 1.2.15. In case the feeder cable is damaged, have it replaced at the technical service center to avoid danger.

## ▶▶ 2. UNPACKING

### See Fig. 1

- ▶ 2.1. Remove all the heater wrapping and packaging materials then dispose of them as per the applicable local regulations.
- ▶ 2.2. Remove all the components from the box.

- ▶ 2.3. Check for any damage during transport. If the heater appears damaged in any way, please inform your vendor promptly.

### ▶▶ 3. FUEL

 **WARNING:** The heater only runs on **DIESEL** or **KEROSENE** fuel.

To avoid fire or explosion, use only diesel or kerosene fuel. Do not use gasoline, naphtha, paint thinners, alcohol or any other combustible liquids.

For low-temperature operation, use antifreeze supplements.

### ▶▶ 4. OPERATING PRINCIPLE

**See Fig. 2**

Airflow is necessary to ensure proper combustion, it is supplied by the internal burner fan. The air enters the burner funnel and gets mixed with a high-pressure fuel jet. The fuel flow is secured by an electrical pump, which sucks the fuel away from the tank and moves it to the nozzle under high pressure.

### ▶▶ 5. OPERATION

 **WARNING:** Read the section **“SAFETY CONSIDERATIONS”** carefully before turning the heater on.

 **IMPORTANT:** After the first time the heater does not switch on, make sure there is fuel in the tank, make sure the fuel filter is clean and make sure that the heater is positioned on a flat, stable surface.

 **IMPORTANT:** This is a target infrared heater. Infrared heats bodies and not the air.

### ▶▶ 5.1. RUNNING THE HEATER:

- ▶ 5.1.1. Observe all safety instructions at all times.
- ▶ 5.1.2. Check if fuel is present in the tank.
- ▶ 5.1.3. Close the fuel tank filler plug.
- ▶ 5.1.4. Plug the feeder cable into the socket (CHECK THE VOLTAGE IN "TECHNICAL DATA SHEET").
- ▶ 5.1.5. Turn the "ON/OFF" switch "ON" (I) (C Fig. 3). The heater should be online in a few seconds. If it is not, please refer to the section "PROBLEM IDENTIFICATION" (Paragraph 10).

**NOTE: IN THE EVENT OF HEATER BEING TURNED OFF DUE TO RUNNING OUT OF FUEL, TURN THE HEATER OFF, REFUEL AND TURN IT BACK ON (SEE PARA. 5.1.).**

### ▶▶ 5.2. TURNING THE HEATER OFF:

 **WARNING:** DO NOT CUT THE POWER OR DISCONNECT THE FEEDER CABLE BEFORE THE HEATER COOLS DOWN COMPLETELY (ab. 5 minutes).

- ▶ 5.2.1. Turn the "ON/OFF" switch "OFF" (0) (A Fig. 3).

### ▶▶ 5.3. ROOM THERMOSTAT CONNECTION (optional):

Remove the plug connected to the appliance and connect the room thermostat (optional) (C Fig. 3).

### ▶▶ 6. CLEANING THE FUEL FILTER

**See Fig. 4**

**DEPENDING ON THE QUALITY OF FUEL USED, IT MAY BE NECESSARY TO CLEAN THE FUEL FILTER.**

- ▶ 6.1. Remove the plug on the fuel tank (A Fig. 4).
- ▶ 6.2. Remove the filter from the tank.
- ▶ 6.3. Unscrew the cap (B Fig. 4).
- ▶ 6.4. Remove the filter (C Fig. 4).
- ▶ 6.6. Clean the filter using clean fuel, do not damage the filter.
- ▶ 6.6. Replace the filter inside the tank.

### ▶▶ 7. MAINTENANCE AND TRANSPORTATION

**TO ENSURE THE BEST MAINTENANCE AND/OR TRANSPORTATION PROCEDURE, PLEASE OBSERVE THE FOLLOWING PROCEDURE:**

- ▶ 7.1. Empty the fuel tank.
- ▶ 7.2. If remainders are still present, pour in clean fuel and empty it again.
- ▶ 7.3. Close the tank filler plug, dispose of the fuel as per the applicable regulations.
- ▶ 7.4. To ensure proper heater maintenance, keep it leveled to prevent fuel leaks, keep it in a dry place and protect from getting damaged.

## ▶▶ 8. DISPLAY ERRORS

See B Fig. 3

| ERROR                                    | CAUSE  | SOLUTION   |

## ►► 9. PREVENTIVE MAINTENANCE SCHEDULE

**WARNING: BEFOR INITIATING ANY REPAIR OR MAINTENANCE PROCEDURE UNPLUG THE FEEDER CABLE AND MAKE SURE THAT THE HEATER IS COOLED DOWN.**

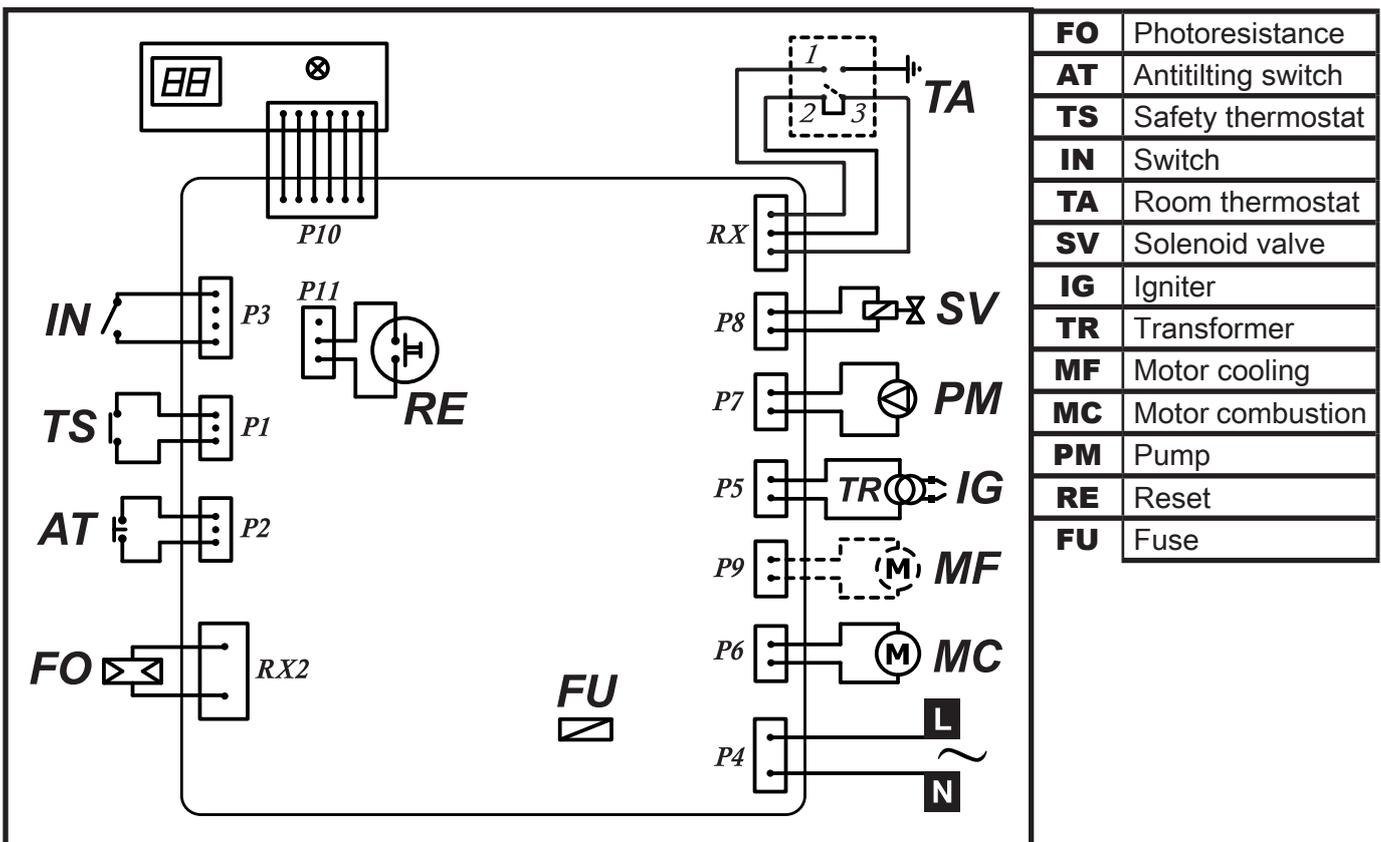

**IF THE HEATER IS USED IN PARTICULARLY DUSTY ENVIRONMENTS, MAINTENANCE AND CLEANING MUST BE CARRIED OUT MORE FREQUENTLY.**

| COMPONENT       | MAINTENANCE FREQUENCY  | MAINTENANCE PROCEDURE                 |
|-----------------|--|---------------------------------------|
| Fuel tank       | Clean every 150-200 hours of operation or when necessary           | Empty and rinse with fresh fuel       |
| Nozzle          | Clean or replace once per season or when necessary                 | Contact the technical service center  |
| Photocell       | Clean once per season or when necessary                            | Contact the technical service center  |
| Fuel filter     | Clean or replace twice per season or when necessary                | Clean the fuel filter with clean fuel |
| Ignition device | Clean or replace every 1.000 hours of operation, or when necessary | Contact the technical service center  |
| Fan blades      | Clean when necessary   | Contact the technical service center  |

## ►► 10. PROBLEM IDENTIFICATION

► en - DISPOSAL OF THE PRODUCT

- This product has been designed and manufactured with top-quality materials and components, which can be re-cycled and re-used.
- When a crossed-wheely bin symbol is attached to the product, it means that the product is protected by the, 2012/19/UE European Directive.
- Please obtain information regarding the local differentiated collection system for electrical and electronic products.
- Respect local Standards in force and do not dispose of old products as normal domestic waste. Correct disposal of the product helps to prevent possible negative consequences for health, the environment and mankind.

► it - SMALTIMENTO DEL PRODOTTO

- Questo prodotto è stato progettato e fabbricato con materiali e componenti di alta qualità, che possono essere riciclati e riutilizzati.
- Quando ad un prodotto è attaccato il simbolo del bidone con le ruote segnato da una croce, significa che il prodotto è tutelato dalla Direttiva Europea 2012/19/UE.
- Si prega di informarsi in merito al sistema locale di raccolta differenziata per i prodotti elettrici ed elettronici.
- Rispettare le norme locali in vigore e non smaltire i prodotti vecchi nei normali rifiuti domestici. Il corretto smaltimento del prodotto aiuta ad evitare possibili conseguenze negative per la salute dell'ambiente e dell'uomo.

► de - ENTSORGUNG DES PRODUKTS

- Dieses Produkt wurde unter Verwendung von Qualitätsmaterialien und -bauteilen entwickelt und hergestellt, die recycelt und wieder verwendet werden können.
- Ist ein Produkt gekennzeichnet durch die Mülltonne mit Rädern und einem Kreuz, wird hier angezeigt, dass dieses Produkt durch die europäische Richtlinie 2012/19/UE überwacht ist.
- Es wird gebeten, sich über die vor Ort bestehende Mülltrennung bezüglich elektrischer und elektronischer Produkte zu informieren.
- Die vor Ort geltenden Vorschriften zur Müllentsorgung müssen eingehalten werden und alte Produkte dürfen nicht zusammen mit dem Hausmüll entsorgt werden. Die ordnungsgemäße Entsorgung des Produkts hilft mögliche negative Folgen für Gesundheit und Umwelt zu vermeiden.

► es - ELIMINACIÓN DEL PRODUCTO

- Este producto ha sido diseñado y fabricado con materiales y componentes de alta calidad que se pueden reciclar y reutilizar.
- Cuando en el producto se encuentra el símbolo del contenedor con las ruedas tachado con una cruz, significa que el producto está tutelado por la Directiva europea 2012/19/UE.
- Se ruega informarse acerca del sistema local de recogida selectiva para los productos eléctricos y electrónicos.
- Respete las normas locales vigentes y no elimine los productos viejos junto con los residuos domésticos normales. La eliminación correcta del producto ayuda a evitar posibles consecuencias negativas para la salud del ambiente y del hombre.

► fr - SE DÉBARRASSER DE VOTRE PRODUIT USAGÉ

- Ce produit a été conçu et fabriqué avec des matériaux et des composants de haute qualité, qui peuvent être recyclés et utilisés de nouveau.
- Lorsque le symbole d'une poubelle à roue barrée est appliqué à un produit, cela signifie que le produit est couvert par la Directive Européenne 2012/19/UE.
- Veuillez vous informer du système local de séparation des déchets électriques et électroniques.
